ENVIRONMENTAL POLICY QA0159 ISSUE 6

Swiftool Precision Engineering Ltd specialises in the manufacture of high integrity machined components, kits, mechanical assemblies, and turnkey engineering projects to the Nuclear, Oil & Gas and Aerospace Sectors. we are always striving to meet customer expectations by using raw materials, manufacturing products, and processes that conform to ISO 9001 standards and good manufacturing practices. It is the intention of the company to supply our customers with products and/or services of the highest quality, to meet or exceed their requirements and ensure we comply with all health, safety, and environmental statutory and regulatory requirements. We acknowledge that our operations have an effect on the environment in terms of the use of raw materials, emissions to air and water, and waste generation.

Our senior management team's commitment to the environment has secured us a state-of-the-art manufacturing facility that utilises innovative processes to provide a safe and healthy work environment for our employees, while guaranteeing quality products that will improve the health and wellbeing of our customers. Our business is strengthened by protecting the health, safety, and environment of our employees, our customers, and the people of the communities in which we do business.

Our reducing environmental impact commitment can be demonstrated in our environmental management procedures and within our objectives and goals stated below:

- Compliance with all relevant standards, laws, requirements, regulations, and public/customer expectations.
- Practicing pollution prevention in order to reduce waste and minimise consumption through...
- Implementing water, fuel, and energy conservation techniques.
- Recycling and reusing materials when possible or designing out waste through service and goods procurement .
- Commitment to sustainable growth by achieving Investors in the Environment accreditation by the end of 2022.
- Publishing an annual organisational sustainability report.
- Minimising unsustainable transport use through a travel plan.
- Reducing or eliminating the production of polluting releases to the environment.
- We commit to reduce our environmental impact through working with suppliers to ensure they also acknowledge and agree to meet reducing agreed environmental impact targets of their products and transportation SPE minimum environmental target reduction is set at -2% in all environmental areas for 2022.

ENVIRONMENTAL POLICY QA0159 ISSUE 6

We will continue to improve our environmental management system through annual reviews using the Plan, Do, Check Act principals, considering any changes within legislation, our organisation, and any other factors. We will convey this policy to all our employees and make certain that they are provided with suitable training to increase awareness of environmental matters.

The Health, Safety, Services & Environmental Officer, has the designated responsibility for the day-to-day implementation of this policy. He has also been appointed as the Company Environmental Champion.

SPE will make this policy available to all employees and site visitors, via staff noticeboards and the company handbook, we will also include this information within company inductions, and when requested to by any other interested parties including members of the public, a signed copy will also be available on the company website.
